MAT Statement of Intent

The Rainbow Multi Academy Trust:

- Recognises its legal and moral responsibilities to persons who may be adversely affected by the Multi Academy Trust's activities.
- Is committed to ensuring, as far as is reasonably practical, the health, safety and welfare of its students, visitors, employees and contractors involved with its activities.
- Will seek to ensure that its legal duties and policy objectives are complied with at all times.
- Will ensure that all foreseeable risks associated with the Multi Academy Trust's activities are identified and removed or controlled through a process of risk assessment and management.
- Will ensure that all employees are suitably skilled and experienced and given such information, induction, training and supervision as may be necessary to enable the safe performance of their duties.
- Will see to inform students' parents or guardian of any health, safety or welfare issues relevant to their child or children.
- Will ensure, as far as is reasonably practical, that this policy statement and supporting documents are kept up-to-date. Review of this policy will be carried out by the Chief Executive Officer, annually or if a significant incident occurs.

Multi Academy Trust Responsibilities

It is recognised that individuals and groups of individuals all have responsibilities for health safety and welfare in the Multi Academy Trust (MAT). The individuals and groups identified below are expected to have read and understood the MAT's policies and procedures for ensuring health safety and welfare and to conduct their duties in accordance with them.

The employer

The employer in this MAT is The Rainbow Multi Academy Trust. The employer has the ultimate responsibility and must ensure that there are arrangements in place for the health safety and welfare of students, staff, visitors and contractors.

Board of Trustees

The Trustees are responsible for ensuring that mechanisms and procedures are in place for health safety and welfare. The trustees will receive regular reports to enable them, in collaboration with the Resources Committee and Heads, to prioritise resources for health safety and welfare issues.

The Board of Trustees have appointed the Premises, Health and Safety Committee (PHSC) to monitor Health and Safety on their behalf. The CEO has been appointed as accountable for health and safety in the Trust.

Chief Executive Officer

The CEO has responsibility for:-

- The management of all health safety and welfare matters in the MAT in accordance with the Statement of Safety Policy;
- Ensuring that regular health safety and welfare inspections are carried out;
- Submitting regular health safety and welfare reports to the Board of Trustees;
- Ensuring that action is taken on health safety and welfare issues;
- Carrying out accident investigations, where appropriate, ensuring these are done and reviewing them;
- Identifying and facilitating employee training needs;
- Liaising with PHSC and the Heads on policy issues and any problems in implementing the Safety Policy;
- Co-operating with and providing necessary facilities for trades union safety representatives;
- Providing necessary facilities for all employees to be consulted on health safety and welfare matters;
- Ensuring that any contractor appointed to deliver services or carry out work is competent to do so via checks on insurance, training etc;
- Monitoring contractors to ensure that the Health and Safety Policy is complied with;
- Take action where any contractor is found to be working in a manner which is considered to be unsafe.

Whilst accountability for the above cannot be delegated, the function of carrying out these tasks can be delegated to other members of staff. In this MAT some of these functions have been delegated to the Estates Manager and the Heads.

Competent Health and Safety Advice

The MAT recognises that it must have access to competent health and safety advice. The MAT's competent advisors are Cornwall Council.

Premises, Health and Safety Committee

The Premises, Health and Safety Committee is responsible for ensuring that mechanisms and procedures are in place for health safety and welfare. The PHSC will receive regular reports to enable them, in collaboration with the Estates Manager/ Head to prioritise resources for health safety and welfare issues.

A Health and Safety person in each school has been nominated to receive information, monitor the implementation of policies, procedure and decisions and feed back to the Estates manager on health safety and welfare issues.

The Health and Safety person for each school is the Head.

MAT Local Roles and Responsibilities

Estates Manager

The Estates Manager has responsibility for:

- The management of all health safety and welfare matters in the MAT in accordance with the Statement of Safety Policy;
- Ensuring that regular health safety and welfare inspections are carried out;
- Submitting regular health safety and welfare reports to the Premises, Health and Safety Committee;
- Ensuring that action is taken on health safety and welfare issues;
- Passing on information received on health safety and welfare matters to appropriate people;
- Carrying out accident investigations with the Head and CEO;
- Identifying and facilitating employee training needs;
- Liaising with PHSC and the Heads on policy issues and any problems in implementing the Safety Policy;
- Ensuring that any contractor appointed to deliver services or carry out work is competent to do so;
- Monitoring contractors to ensure that the Health and Safety Policy is complied with;
- Take action where any contractor is found to be working in a manner which is considered to be unsafe.
- Ensuring that all projects are undertaken in total compliance with the current CDM regulations.

Head

The Head has responsibility for: -

- Day-to-day management of health safety and welfare in accordance with the Health and Safety Policy; including conducting site walkarounds, meeting with the Estates Manager and Site team regularly and ensuring that defects are actioned as soon as possible.
- Drawing up and reviewing departmental procedures regularly and ensuring the all staff have read and understand them.

- Ensuring that suitable risk assessments have been carried out for all activities where there is a significant risk and ensuring that these risk assessments are reviewed on a regular basis to ensure they are as accurate and useful as possible.
- Carrying out regular inspections and making reports to the Estates Manager
- Ensuring action is taken on health safety and welfare issues as soon as practical;
- Arranging for employee training, information and instruction in conjunction with the Estates Manager;
- Passing on health safety and welfare information received to appropriate people using the correct method, i.e phonecall or helpdesk depending on urgency
- Acting on reports from employees, the PHSC and the Local Education Authority.

All Employees

All employees have a general responsibility, as far as reasonably practical, to ensure the health safety and welfare of themselves and others who may be affected by anything they do or fail to do. In particular employees have a responsibility for:-

- Checking that classrooms/work areas are safe and kept clean and tidy
- Checking equipment is safe before use;
- Ensuring safe procedures are followed;
- Ensuring protective equipment is used when needed;
- Participating in inspections and the Health and Safety Committee if appropriate;
- Reporting health and safety concerns immediately to the Head or Site Team.
- Reporting minor defects using the helpdesk system.
- In addition, all employees have a responsibility to co-operate with the employer on matters of health and safety, and this is vital to the success of the Health and Safety Policy.

Volunteers

Volunteers (such as parent-helpers, etc.) have a responsibility to act in accordance with the Trust's policies and procedures for health safety and welfare and to report any incident or defective equipment to a member of staff immediately.

Volunteers are also expected to act only under the supervision of a qualified employee.

School Specific Information

Each School has their own Responsibilities and Arrangements document which details their own on site specific information and runs alongside this policy.

Monitoring of health and safety functions

The Head has on site responsibility for the health and safety checks. However, these can be delegated to a nominated person (i.e Secretary or site team member).

The responsible people must ensure that all of the functions they have responsibility for are being completed. The procedure for monitoring this is through a monthly compliance report. Any gaps in checks being completed will be highlighted through this system.

The central team will independently monitor that the schools are completing all of their Health and Safety functions by reviewing Premises software entries, checking paperwork and completing site inspections when visiting schools.

Procedures for Health and Safety functions

This section of the policy details the Trust procedures for managing Health and Safety. School specific information is detailed in their Responsibilities and Arrangements Document.

1. Reporting defects

For any urgent health safety and welfare defects staff are required to inform the Head or a member of the site team immediately. Depending on the defect this may require an additional member of staff to remain in the area to warn others of the issue.

If a health and safety defect falls into any of the below criteria then remedial action/ a phone call must be made immediately:

- Risk to life
- Major security breach
- Total loss of communication ie phone lines down
- Immediately dangerous situation
- Broken window
- Flood

For any other defects staff must report these on the helpdesk system. All staff are able to access this through SharePoint and a link on their computer desktops. The tickets are then received by the site team and the estates manager who will ensure that they are actioned.

The helpdesk system allows responses to be sent so staff are aware that the issue is being resolved. If the staff member is not confident that the issue is being resolved they must inform the Head. The Head will escalate the issue to the Estates Manger.

2. Inspections/Site walkarounds

A detailed site walkaround must be completed on a regular basis. The Head is responsible for ensuring this is completed. The Head will complete their inspection on a termly basis as a minimum. A weekly inspection must be completed although this can be delegated to the site team/secretary.

The list in section 1 must be referred to decide whether defects must either be resolved immediately or reported on the helpdesk system.

3. Arrangements for the Supervision of students

The school opening times are given in the Schools Responsibilities and Arrangements document. Between these times supervision will be provided. Students will not be allowed on site outside of these times unless for the purpose of pre-arranged activities and events.

After School Lettings

Unless specifically agreed in the Lettings Agreement the school does not provide supervision for any groups using its facilities as part of a letting/hiring agreement.

4. First Aid

Assessment of needs

An assessment of first aid needs has been carried out to identify the required numbers of first aid trained staff in school. Each school's assessment can be found in their Responsibilities and Arrangements document.

First Aid Appointed Person

The first aid responsible person is responsible for overseeing the arrangements for first aid in the school. The First Aid Appointed Person's duties include ensuring that:-

- First Aid equipment is available at strategic points in the school and these are kept fully stocked and these locations are listed on First Aid Posters throughout the school.
- A sufficient number of personnel are trained in first aid procedures.
- First Aid qualifications are, and remain, current.

The First Aid Appointed Person will also check first aid logs for indications of recurrent or frequently reported types of injury on a termly basis. Any findings must be reported to the Head. The First Aid Appointed Person is responsible for calling an ambulance in an emergency.

First Aiders

A first aider is someone who is qualified to give first aid treatment in the event of an injury or illness. The first aiders will provide first aid treatment for school staff or pupils on site during the school day and may assist others injured whilst on the school site. They will also provide, as appropriate, first aid cover for:-

- Trips and visits
- Extra-curricular activities organised by the school (e.g. sports events, after school clubs, parents' evenings, school organised fund raising events etc.)

First aid cover is not specifically provided for:-

- Contractors
- Events organised by third parties (fetes, evening clubs, etc.) First aid cover must be provided by the organiser in these circumstances

First Aiders are responsible for ensuring that First Aid Logs are completed for all treatment given and that the necessary details are supplied for the reporting of accidents (see Reporting of Accidents section).

The school's first aiders are identified in the school's First Aid policy.

Treatment of Injuries

The school will rely on the knowledge and experience of its trained first aiders in order to administer appropriate treatment to injured persons.

In emergency situations the first aider will call (or instruct another member of staff to call) 999 and request that an ambulance and paramedics attend.

Where there is any doubt about the appropriate course of action the first aider will be expected to consult with the NHS urgent care helpline

Telephone 111

and, in the case of student injuries, with the parents or legal guardian.

Suspected Head, Neck and Spinal Injuries to Students

In the event of a suspected head, neck or spinal injury to a student it is the policy of this Trust, in addition to the normal first aid procedures, that the student's parent/guardian is contacted and informed of the injury.

The attending first aider, in consultation with the parent/guardian, will decide the appropriate course of action in each case. The first aider will ensure that treatment is not delayed by difficulties in contacting the parent/guardian.

In any case where there is any doubt about the student's wellbeing, the first aider is expected to contact the Health Service Helpline for advice or phone for an ambulance as appropriate.

Other Significant Injuries

Any other serious injury will be notified to the parents/guardians by the quickest means possible (normally by phone) by a member of SLT or by School Secretary as instructed by SLT.

Escorting Pupils to Hospital

When it is necessary for a student to be taken to hospital they will be accompanied by a member of staff – unless the student's parent/guardian is in attendance.

The member of staff will stay with the student until a parent/guardian arrives and responsibility is transferred.

5. Pupils with Medical Needs

The Trust recognises that it has a responsibility to support pupils with medical needs. The School follows the Department for Education's guidance on managing medicines in schools and early years settings:-

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/484418/supporting-pupils-at-school-with-medical-conditions.pdf

Please refer to Supporting Children with Medical Needs policy.

Responsible Person

The responsible person is to ensure that the arrangements below are effectively implemented and maintained. The responsible person is identified in the Schools Responsibilities and Arrangements document.

Medicine in School

Medicines will only be administered at School when it would be detrimental to a student's health not to do so. The School will store and dispense medication to students as long as:-

- It is prescription medication which has been prescribed by a medical practitioner with written instructions for its use; or
- It is non-prescription medication which has been supplied by the parent/guardian with written instructions for its use; and
- Written parental consent has been given.

Medication brought into school must be clearly labelled with the child's name, dosage, method of administration and be in date. Medication will be available to identified students at all times of the school day.

Training

The Head will ensure that sufficient staff are suitably trained in the administration of medication and support of students with medical needs.

The responsible person will keep a record of all medical needs training.

Sharing of Information

The responsible person will ensure that relevant staff are made aware of any student's medical condition. This information will include, where appropriate:-

- Medical condition
- Side effects of medication
- Signs and symptoms
- Modifications and allowances
- Emergency actions

The responsible person will also ensure that relevant information is shared with cover staff etc.

Individual Healthcare Plans

The responsible person will work with (or identify an appropriate member of staff to work with) healthcare professionals and parent/carers to establish an effective healthcare plan where appropriate.

Healthcare plans will be reviewed if there is reason to suspect that the plan is no longer appropriate and at least annually. A healthcare plan review can be initiated by the School, healthcare professional or the parents/carers.

Risk Assessment

In addition to the healthcare plan the School will carry out individual risk assessments for any student where the student's medical needs introduce new risks to an activity or increase existing risks. This will include (but may not be limited to) individual risk assessments for off-site activities, sporting activities and practical lessons.

Risk assessment for off-site activities, in particular, will include consideration of:-

- Access to medication
- Appropriate storage of medication
- Staff training in administration of medication
- Emergency procedures

Unacceptable practice

To prevent unacceptable practice the responsible person will ensure that:

- Students have access to their medication at all times during the School day or during educational activities off-site.
- Healthcare plans reflect the needs of the student and take into account the views of parents/carers and advice of healthcare professionals
- Every effort is made to ensure that students with medical needs are able to stay in School for normal School activities (including lunch) unless there is a specific reason detailed in their healthcare plan not to do so.

- If the student becomes ill; ensure that he/she is accompanied to the School office by an appropriate person.
- Toilet, food and drink breaks are provided where necessary in order to manage a student's medical condition.
- Arrangements for administering medication do not include the need for parent/carers to attend School.
- Every effort is made to ensure that students with medical needs are able to take part in every aspect of School life including off-site activities, sporting events and practical lessons.

Complaints

Parents/carers are encouraged to contact the school's responsible person if they are concerned or dissatisfied in any way with the support provided by the School for a student with medical needs.

If concerns cannot be resolved in this manner; parents/carers can follow the Trust's complaint procedure which can be found on the Trust website.

6. Accidents/Incidents

Reporting Officers

Nominated members of staff in each school have access and authority to report accidents and incidents, they are identified in the Schools Responsibilities and Arrangements document.

The Reporting Officer will record incidents using the systems below. The Head will review all reports.

Accident/Incident Reporting Systems

This Trust records all significant accidents and incidents using the AssessNet Online Health and Safety management system provided by Cornwall Council. A significant accident is:-

- Any incident resulting in an injury to a member of staff
- Any incident resulting in an injury to a visiting member of the public
- Any incident resulting in an injury to a contractor on the school site
- Any incident resulting in an injury to a student which was (or might be) due to
 - The condition or layout of the premises or facilities
 - The condition of any equipment in use
 - The level (or lack) of supervision
 - The level or quality instruction or training provided

Any "Dangerous Occurrence" as listed in the schedule to the Reporting of Injuries Diseases and Dangerous Occurrences Regulations (RIDDOR)

Any "Occupational Disease" as listed in RIDDOR.

Further guidance on what should be reported is available through the Online System or the School Messenger website.

Where the description of the accident/incident meets the criteria set out in RIDDOR a report will be sent to the Health and Safety Executive by the Head.

All incidents/accidents will be recorded on the GDPR compliant paperwork. Following consultation with the Head/First Aider significant incidents/accidents will be logged on the AssessNet system.

Reporting Timescales

	Reporting timescale
Students will report accidents/incidents to a member of staff	Straight away if possible and in any case on the same day as the incident
Staff will report accidents/incidents to a reporting officer	Straight away if possible and in any case on the same day as the incident
Reporting Officers will complete the online report	Within 24 hours unless there are extenuating circumstances

Accident/Incident Investigation

All incident reports will be reviewed by the Head and Estates Manager who will decide if an internal investigation is necessary. All Heads are trained in accident investigation. Investigation reports will be entered onto the Online Accident Reporting System. Significant incidents (as determined by the Head) will be reported to the CEO and also the Estates Manager.

All reports submitted via the Online System are reviewed by the Health Safety and Wellbeing Services Team from Cornwall Council.

Health Safety and Wellbeing Services will recommend an independent investigation of the accident/incident if the review indicates a need. They will also highlight if an incident/accident is reportable under RIDDOR. The Estates Manager/ CEO will decide how this will be investigated.

The Estates Manager will review all incident reports and prepare reports for the PHSC. This will include the breakdown by school and type of incident. The committee will question and discuss any incidents that have resulted in serious injury, happen on a regular occasion or are a cause for concern. The Estates Manager and CEO will be responsible for providing details of any investigations that have occurred and any actions/change in procedure that have been implemented to reduce the risk of further occurrence.

Procedures for dealing with near misses are given in the Schools Responsibilities and Arrangements document.

7. Training

Identification of Training Needs

The central office will undertake a review of the health and safety training needs of staff.

A prioritised plan for delivery of training will be put in place where the review identifies a need. High risk training will be completed first, ie. First aid/fire warden.

The Estates Manager is responsible for carrying out the review of training needs and presenting recommendations to the Heads. Heads also have a responsibility to highlight any training needs.

The Trust recognises that staff being away from school due to training impacts the provision of education to its children. Therefore, where possible training will be arranged to minimise this impact ensuring:

- several staff are not out of school at the same time
- that training provided is accurate, relevant, necessary and useful

Staff Responsibilities

Staff must attend all health and safety training provided by the academy.

8. Risk Assessment

Risk Assessment

Each School will seek to identify all activities and situations where there is a likelihood of significant risk. Significant risks will be assessed, and controls will be introduced to remove or reduce those risks.

Risk Assessment Process

The school will carry out risk assessments using the Trust's current risk management software.

Each school will nominate a staff member who is responsible for reviewing the risk assessment process and producing relevant reports for the Head. This person is identified in the Schools Responsibilities and Arrangements document.

Schools must record that staff have read and understand the relevant risk assessments.

Staff Responsibilities

All staff are required to support the risk assessment process.

Staff identified with responsibility for activities are required to carry out or lead the risk assessment process for those activities.

The Head is responsible for ensuring that risk assessments are reviewed regularly (at least annually or when there is a change to the activity/children attending)

Safe Working Procedures

Where appropriate, risk assessments will be used to develop safe working procedures. These safe working procedures will form the basis of the school's normal operating procedures. Copies of safe working procedures are available from the school's nominated person. These will be reviewed by the members of staff completing the risk assessed activity and any necessary changes to the risk assessment will be fed back to the nominated person promptly. The risk assessment will then be reviewed and updated.

9. Fire

Evacuation procedures

Each School has their own evacuation procedures which will be displayed in Reception and are also given in the Schools Responsibilities and Arrangements document. This contains the escape routes and details of the fire wardens and their assigned areas.

The Head is the responsible person for fire in their school and they will nominate a deputy who will be responsible in their absence.

Responsible Person

The Head is responsible for:

- Arranging a fire evacuation drill at the beginning of the academic year and at least once every term (once per half-term where practical)
- Recording the significant results of the fire evacuation drills
- Ensuring that the Fire Log is kept up-to-date (checking that testing is completed as required - alarm tests every week, emergency lighting every month, fire extinguisher checks, etc)
- Ensuring that a fire risk assessment is carried out and kept up-to-date
- Reporting to the Estates manager/ CEO on issues of significance.
- Ensuring the evacuation procedure is reviewed and remains accurate. This must be reviewed if there are any changes to the building that will affect evacuation routes. This includes PEEPs.
- Ensuring that all visitors to the site are made aware of the evacuation procedures.

All Staff

All staff are responsible for ensuring that students and visitors evacuate in an orderly and timely fashion in the event of the alarm sounding.

Staff are responsible for ensuring that they: -

- Do not store combustible materials in escape routes or against sources of combustion
- Do not leave fire-doors wedged open or block escape routes (items left in corridors or hanging from walls and ceilings)
- Do not misuse any equipment provided for fire safety
- Report any defect in equipment provided for fire safety to the Head of School or Site Team
- Report any fire hazard to the Head or Site Team.

Personal Emergency Evacuation Plans (PEEPs)

PEEPs will be written for any person (child, staff or visitor) who requires additional support when evacuating the building. The Head must ensure that these are completed and reviewed regularly.

Fire Wardens

Each school will nominate and train fire wardens, these are identified in the Schools Responsibilities and Arrangements document.

Fire Wardens have received training in fire prevention, the principals of fire safety, safe use of firefighting equipment and effective evacuation procedures.

In the event of a fire, Fire Wardens will assist in the evacuation of the premises by:-

- Checking that their assigned areas have been evacuated (if it is safe to do so)
- Supervising and directing students and staff to areas of safety.

Site checks

Periodically Heads/Site team will carry out inspections of the school to identify fire hazards and any other fire safety related issues. These inspections will be reported to the Site Team/ Estates Manager for action.

Fire Fighting Equipment

Firefighting equipment has been positioned at appropriate positions around the site and will be serviced by a qualified contractor annually.

In accordance with the Regulatory Reform (Fire Safety) Order 2005 fire wardens have been given training in the use of first aid firefighting equipment. It is the policy of the school to evacuate the building and not to fight a fire. However, fire wardens have been trained in case of emergency i.e fire blocking the only escape route.

Fire alarm/Emergency lighting equipment

The fire alarm will be tested weekly by a member of the school staff that the Head nominates. There will be a number of staff trained to ensure that alarms are still tested in the nominated persons absence. The fire alarm system will be serviced by a contractor on a 6 monthly basis and the emergency lighting will be tested 6 monthly (1 hour and 3 hour tests) by a contractor.

10. Electricity

School Owned Portable Appliances

The Trust will undertake to inspect and test all its portable electrical appliances by a suitably trained and qualified person on a yearly basis.

Tests will be carried out by companies who have been checked and authorised by the Estates Manager.

All test Certificates will be kept for the duration of the life of the appliance. The most recent certificate will be stored in the school compliance folder and previous certificates will be stored electronically in the central office.

The Head is responsible for ensuring that all equipment is available for testing on test days including staff laptops.

Personal and Privately Owned Portable Appliances

Personal items of electrical equipment may only be bought into the school/academy by prior agreement.

Each school is responsible for keeping an up-to-date inventory of all relevant electrical appliances and for ensuring that all equipment is available for testing.

The Estates Manager is also responsible for ensuring that a fixed wiring inspection is carried out for premises every 5 years by an authorised contractor.

11. The Control of Hazardous Substances

Hazard Assessment

All substances which may be considered hazardous to health under the Control of Substances Hazardous to Health (COSHH) Regulations have been assessed using Cornwall Council's COSHH Assessment Process.

The exception to this is for substances and preparations used in Science – these substances and preparations are used in accordance with the Hazcards provided by the Consortium of Local Education Authorities for the Provision of Science Services (CLEAPSS).

A central copy of COSHH assessments is kept by the COSHH coordinator identified in the Schools Responsibilities and Arrangements document.

Staff Responsibilities

Staff shall not use any hazardous substance without first having read and signed the COSHH Assessment (or Hazcard in Science).

Staff shall inform the COSHH Coordinator of any new hazardous substance purchased in order that an assessment can be made prior to use.

COSHH Coordinator

Each school will nominate a member of staff who is responsible for ensuring that, before any new substance/chemical is used, a COSHH assessment has been obtained from Cornwall Council.

The Coordinator is responsible for ensuring that COSHH assessments are seen and understood by those staff who are exposed to the substance/preparation.

The Coordinator is also responsible for ensuring that any updated COSHH assessments received are seen and understood by those who are exposed to the substance/preparation and that the COSHH file is kept up-to-date.

The Coordinator is responsible for ensuring that COSHH assessments are also obtained from contractors on site (both regular contracts such as cleaners and caterers and from builders, decorators, flooring specialists, etc.) where persons may be affected by their use of site or the storage of such substances/preparations may need to be controlled.

In addition, any hazardous substances or preparations being used by visiting artists, crafters, etc. must have appropriate COSHH assessments before being used in the school.

12. Display Screen Equipment

Workstation Assessment

The person identified in the Schools Responsibilities and Arrangements document is responsible for overseeing the assessment of all display screen equipment (DSE) used by people at work (i.e. excluding student workstations) to ensure that it is suitable for the task and complies with legislation and the relevant British Standards.

Equipment

Appropriate DSE equipment will be provided as identified by workstation assessments. DSE assessment forms can be obtained from the Estates Manager. If staff suffer from any musculoskeletal problems or have a change in role or office environment they should complete the assessment more frequently or when their role changes.

Eye Tests for Display Screen Equipment Users

All academy employees who are defined as DSE users are entitled to a free eye test and special glasses for use with DSE. The academy operates a voucher scheme for eye tests and these can be obtained by contacting the MAT central office.

DSE users are defined as:-

- Employees who use display screen equipment as a significant part of their normal work; and
- Use DSE for continuous or near continuous spells of an hour or more at a time; and

- Use it in this way more or less daily; and
- Have to transfer information quickly to or from the display screen equipment; and
- A requirement to apply high levels of attention and concentration; or are highly dependent on DSE or have little or no alternative means of completing the work/task.

(Agency staff and other people at work in the school should contact their own employer for details of arrangements).

13. Work Equipment

The Estates Manager is responsible for overseeing the purchase of all work equipment to be used by the Site team. Heads are responsible for overseeing the purchase of all work equipment to be used in school.

All work equipment must be purchased from a reputable supplier for the type of equipment that is required. Before purchase consideration must be given to:-

- The installation requirements
- The suitability for purpose
- The positioning and or the storage of the equipment
- Maintenance requirements (contracts and repairs)
- Training and use of the equipment

Staff must not use new items of work equipment unless appropriate training has been given.

14. Management of Contractors

The Estates Manager is responsible for overseeing the management of all contractors on site in conjunction with the site team.

Selection of Contractors

The school will only select contractors to carry out work who have demonstrated: -

- Competence to carry out the work required (by way of training, knowledge and experience)
- Assessment of the risks associated with the work
- A safe scheme of work
- Appropriate management of the work
- Appropriate vetting procedures for their employees where appropriate
- Appropriate employers and public insurance

Management of Contractors

Supervision of contractors will, to an extent, depend on the type of work being carried out: -

- New contractors or contractors visiting the site on a one-off basis will be directly supervised by a member of school staff.
- Term contractors or regular contractors to the site will only be allowed unsupervised access following appropriate checks and assurances from the employer.

All contractors will be required to carry visible identification.

Direct supervision will not be necessary where the area of work is physically separate from the school (for example: where there is construction on site).

Construction Works

For all construction works (other than minor maintenance works) the area under construction will be physically separated from the rest of the school and will be out-of-bounds to all non-construction workers except for the purposes of contract management.

15. Personal Protective Equipment

Academy Responsibilities

Personal protective equipment (PPE) will be supplied to control hazards only as a last resort – i.e. where the hazard cannot be removed or reduced to an acceptable level of risk by other means.

Where provided the academy has a duty to ensure that PPE is used effectively. Managers will be expected to monitor and record the use of PPE and enforce its use where necessary.

Assessment of Need

The need for PPE will be determined during the Risk or COSHH Assessment process.

Where identified as necessary PPE will be provided without cost to staff or students.

Purchase and Storage of PPE

Each school will nominate a member of staff who will be responsible for the purchase of PPE ensuring that it is of the correct type, is suitable for the purpose and of the correct size to ensure that the fit is comfortable for the wearer and takes account of any health or medical conditions.

In addition, this person will ensure that suitable arrangements are in place for the storage, cleaning and replacement of PPE.

Staff and Student Responsibilities

When issued with PPE; staff and students are required to wear it correctly.

Staff must take all reasonable precautions to ensure that PPE is stored and maintained properly.

16. Working Alone

It is recognised that, from time to time, it may be necessary for academy staff to work in situations or locations which are remote from other members of staff. This will include staff working in the evenings, weekends or during the holiday in the school on their own.

In such circumstances the school will assess the risk to these individuals and will introduce suitable controls to ensure that all risks are minimised. A copy of the procedures introduced to control these risks will be kept on AssessNet and in the Heads/Secretary's office.

Any staff wishing to work outside normal school hours must have prior agreement/permission from the Head.

School Security

Each school has appointed a person responsible for site security at the end of the day. This is identified in the Schools Responsibilities and Arrangements document.

Call Out Arrangements

The Trust has call out arrangements that will reduce the possibility of injury to staff and which ensure that if an incident occurs support will be provided.

Security Firm Personnel Attendance

The Trust has a contract with a security firm who will respond to alarm activations without recourse to a school key holder or who will arrange for someone to meet with the key holder whilst they check the site.

17. Violence

Zero Tolerance

Violence is not tolerated in this academy. Action and the appropriate sanctions will be taken against the perpetrator of any violence towards staff, students or visitors to this school.

Violence towards Staff

Violence towards staff from other members of staff, visitors or members of the public will be reported to the police.

Violence towards staff from students will be dealt with using the academy's internal disciplinary procedures (which may include police involvement where appropriate).

Violence towards Visitors

Violence towards visitors will be reported to the police.

Violence towards Students

Violence between students will normally be dealt with using the school's internal disciplinary procedures (which may include police involvement where appropriate).

Violence towards students from staff, visitors or members of the public will be reported to the police.

Responsible Person

The Head is responsible for ensuring that all:-

- Staff are aware of the policy and procedures for dealing with violent incidents
- Staff have received instruction in procedures/techniques for avoiding violence at work
- Staff are aware of the procedures for reporting violent incidents
- Incidents of physical and verbal abuse are recorded using the Online Accident Reporting System

Team Teach

Team Teach is a training package for staff utilising de-escalation and positive handling strategies to support a child when they are in a crisis situation. Each school will have a number of team teach trained staff dependent on numbers on roll.

Each school has their own specific policy and procedures aimed at the control of students which has been adopted.

18. Working at Height (WAH)

Working at height remains one of the biggest causes of fatalities and major injuries. Common cases include falls from ladders and through fragile surfaces. 'Work at height' means work in any place

where, if there were no precautions in place, a person could fall a distance liable to cause personal injury.

It is the policy of the Trust that only staff trained in correct WAH techniques and procedures will do so. Trained members of staff are identified in the Schools Responsibilities and Arrangements document.

Before carrying out any WAH task those carrying it out must carry out a risk assessment and follow the steps identified by the HSE at <http://www.hse.gov.uk/toolbox/height.htm> .

Before working at height work through these simple steps:

- **Avoid** work at height where it's reasonably practicable to do so
- where work at height cannot be easily avoided, **prevent** falls using either an existing place of work that is already safe or the right type of equipment
- **minimise** the distance and consequences of a fall, by using the right type of equipment where the risk cannot be eliminated

School staff are authorised to use a two step ladder or elephants foot step stool when it is necessary to reach higher heights. Each school has access to these so there is no need for staff to stand on tables, chairs or other equipment.

If staff are unable to reach the required location by using the 2 step ladder they must request a working at height trained member of staff to complete the task for them or re-evaluate the task.

In case of doubt refer to <http://www.hse.gov.uk/work-at-height/index.htm> and the school's responsible person named in the Schools Responsibilities and Arrangements document.

19. Asbestos precautions

The Trust has a responsibility for the management of asbestos in all its premises in order to prevent exposure to employees, contractors and all other persons who might be affected by its work.

The Control of Asbestos Regulations 2012 have been published including an Approved Code of Practice as HSE L143 (Second Edition) published 2013.

An Asbestos Management Plan (AMP) for each site is held in the school office and must be viewed by all contractors before starting work on site. Viewing the AMP is acknowledged by signing the access sheet in the AMP.

The Head is responsible for the AMP and the control of asbestos risks in this academy.

No one is to disturb any area identified as containing asbestos materials without suitable and sufficient controls and authorisations being in place.

Any known asbestos on site will be monitored monthly by the Site Team and annually by an external contractor.

Even if there has been no asbestos found on site schools cannot assume that there is none. If an unidentified material is found it should be assumed to be an asbestos containing material until tested by a qualified contractor.

If asbestos is disturbed on site the procedures on how to proceed are clearly listed in the asbestos folder.

If any asbestos is to be removed this will be done by a licensed and fully checked contractor.

20. Radon precautions

Cornwall Council [CC] has a RADON Policy that acknowledges the responsibility to occupiers of buildings concerning exposure to Radon. Exposure will be controlled within CC properties in order to conform to the Health and Safety at Work (etc) Act 1974 and the Ionising Radiations Regulations [IRR].

CC has published Radon Rules that should be used for guidance of academies to satisfy the regulatory requirement.

The Trust employs an external contractor to meet their regulatory requirement for the monitoring of Radon. If a school is found to have high levels a risk assessment will be completed and mitigation installed.

If a school has radon mitigation installed this will be serviced on an annual basis.
