Dear Parents/Carers,

Active Learn Primary – Maths homework

As part of our maths homework your child has access to www.activelearnprimary.co.uk. Each pupil in Tregonning and Trecrom class has their own login to our school area where their teachers can set them online homework to practice and consolidate maths skills. To log in, please go to www.activelearnprimary.co.uk

Username: **(first 4 letters of their first name followed by first 4 letters of their surname) e.g. adamrich**

Password: **changeme**

School code: **hk9w**

Once logged in each child has their own 'maths area' to explore, complete challenges and earn rewards. Under the 'My Stuff' tab at the top of the page, any allocations of homework or activities that has been set by the class teacher will be shown. Once complete the class teacher will receive a notification of how the pupil got on with the homework. **The teachers are aiming to allocate at least one homework activity a week to their pupils.**

The website and games should work on any device connected to the internet. If your child needs to access the website via an ipad, for best results download the Puffin web browser and login through that to solve Flash player issues in the ipad's Safari app. **Any child not able to access the internet at home will be given time in school to complete the activities.**

We hope you agree that this method of practising maths skills at home has great potential to help our children improve their mathematical skills and support the learning in school.

Thank you for your continued support,

Mrs Lawlor
Maths Subject Leader
